

The Heavy-Lift Unmanned Helicopter for Critical Missions

An unmanned rotorcraft platform designed to deliver rapid, and reliable support in demanding environments.

With an **exceptional payload weight** and **real-time reconnaissance capabilities**, it provides both **cargo and intelligence** in a single platform.

Available in two configurations:

- Optimized for land operations, with a heavy-cargo configuration with tactical deployment capabilities.
- Maritime version, customized for naval operations from vessel or land and harsh weather conditions.

Flexible mission profiles allow payload-to-endurance optimization, including the option of external fuel tanks for extended range.

SKYFLARE

TECHNICAL SPECIFICATIONS

Endurance: **3.7 hours**

Extended Endurance: **8 hours**

Range: **200 km**

Cruising speed: **140 km/h**

Maximum speed: **160 km/h**

Payload: **500 kg**

Width over skis: **1.43 m**

Height: **2.1 m**

Total length: **8.3 m**

Main rotor diameter: **7.85 m**

Tail rotor diameter: **1.375 m**

MTOW: **1.018 kg**

Fuel capacity: **134 kg/169 l**

Ceiling: **4.000 m**

Engine: **RR 300**

Fuel: **JET-A1**

MAIN FEATURES

High-resolution optical camera including IR.

Automatic takeoff and landing.

Manual flight mode waypoint navigation.

Customizable mission system as per end user needs.
